# About ICD-10

ICD-10-CM/PCS (International Classification of Diseases, 10th Edition, Clinical Modification/Procedure Coding System) consists of two parts:

1. ICD-10-CM for diagnosis coding
2. ICD-10-PCS for inpatient procedure coding

ICD-10-CM is for use in all U.S. healthcare settings. Diagnosis coding under ICD-10-CM uses 3 to 7 digits instead of the 3 to 5 digits used with ICD-9-CM, but the format of the code sets is similar.

ICD-10-PCS is for use in U.S. inpatient hospital settings only. ICD-10-PCS uses 7 alphanumeric digits instead of the 3 or 4 numeric digits used under ICD-9-CM procedure coding. Coding under ICD-10-PCS is much more specific and substantially different from ICD-9-CM procedure coding.

## **IMPORTANT NOTE**

Your facility must provide ICD-10 codes to Quest Diagnostics with each specimen. Due to the high specificity of ICD-10, Quest Diagnostics will be unable to translate ICD-9 codes to ICD-10 codes.

This list is intended to assist ordering physicians in providing ICD-10 diagnosis codes as required by Medicare and other Insurers. It includes the diagnosis narratives and the codes that are most commonly submitted for toxicology and pain management tests orders, but is not a complete list. The list was compiled from the ICD-10-CM 2015 book. The responsibility for correct coding belongs to the ordering physician. The ICD-10-CM book should be used as a complete reference.
